MINING, BUSINESS AND STOCKS.

FURTHER SLUMP IN THE STOCKS

Booty This Morning.

BUSINESS WAS FAIRLY GOOD

Prices Realized, However, Were Lower Than on Yesterday Few Exceptions to the Rule.

Compared with yesterday's closing quotations on the Salt Lake stock and mining exchange, there was a decided change to a loss in many of the stocks. For some reason Daly-West was more prominent upon the bargain counter and registered sales of 465 shares without bringing better than \$25, nearly half of them going at \$24.50. Yesterday's close showed figures of \$25.50 bid and \$26 wanted and this morning there was a slump of 90 cents on the one hand and an even dollar on the other. Lower Mammoth sold at 80 and 75 and clos-ed at the latter figure asked for the stock this morning, while yesterday 88 was asked. Carisa, which secured a prominent array of sales, was bettered somewhat in the trading, but towards the end of business in that security it reverted back to a poor figure, the las trade showing a realization of 43 cents for each of 1,300 shares. The stock closed at 42% bid and 43% asked, with an inclination to reserve itself against further reductions. Uncle Sam Con-solidated was the recipient of consideable attention, at very poor figures, the stock going at 52½ in the opening and being pushed down to as low as 50 cents in the course of the business. ed at an average of 3 cents to the bad as compared with yesterday after-noon's closing prices and 6 cents under yesterday morning's quotations May Day was in the market for business and sold seven thousand pieces at a little less than yesterday afternoon's inal postings, but was successful in resisting the more damaging assaults The realizations, however, were infer-ior to yesterday morning's close by or to yesterday morning's close by quite respectable margins. Consolidated Mercur was one of the stocks that stiffened up and showed a gain of h_2^{ij} cents in the bidding. To the extent of 200 shares this stock was purchased at from \$1.75 to \$1.78. California kept Con. Mercur company on the rise and the sales made this morning secured returns in advance of yesterday after-noon's close and still better than yesterday morning's quotations. Yankee Con. was immovable in the quotations. and brought better figures in the trading, 100 shares reaching \$2.12 each. Century was posted up for a loss of

cents, but sold 1,500 shares at 17 and On the whole lot the bear contingen got the best of the morning's work the sears from the onslaught being vis ible in the subjoined array of quota-

WASATCH COUNTY IS AN OIL FIELD

Bear Contingent Makes a Haul of | Charleston Reports Location of Some Good Prospects.

FIELDS RAPIDLY SECURED.

An Arizona Company Takes Up Over Three Thousand Acres of Ground Near Charleston

The people of Wasatch county were greatly surprised when they learned that a new financial star had appeared in the vicinity of Charleston. Old settlers have for years noticed oil on the top of the water in springs and sloughs in the valley and in holes along the foot hills. They believed that there might be valuable deposits of oil beneath the

surface of the ground. While at work the other day Wm. Al len's attention was drawn to this oil on the water. He secured some in a bottle and noticed that it had the pecuttar odor of petroleum. Being a man of some experience in this business, he quietly prospected the whole surrounding country with most satisfactory results. His next step was to send for Mr. Robert Forester, oil and coal expert of the Rio Grande Western rail-way, who went to Charleston, and after viewing the country and seeing the oil, prenounced it a most favorable and neouraging prospect. This was a stimulus to continue prospecting and inves-tigation, which culminated in Messrs. Holcomb and Gage, representatives an Arizona company, inspecting the ground and locating some 3,000 acres for their company. These men are experts and say there are the best indications at Charleston they have seen in Utah and think the oil is of a very high test

and judging from what is visible there is a great quantity here. Another company has organized and located a large tract of land on the cast side of Provo river, opposite the Arizona company, which is anxiously watching the movements of the latter company which expects to gink a wall empany, which expects to sink a well

luring May.

When the location papers were re When the location papers were recorded and the facts made public, many parties became quite enthusiastic and eager to get a piece of land.

As everyone knows, Heber valley is a basin with large coal deposits, on the north and east, extending to the reservation. Where the Arizona company intendr to drive a well is the lowest part of the county, among the sand stone and state rock which have the color and state rock which have the

color and odor of petroleum and will

Account of Certain Deals. Alexander Hamilton, by his attorney 3. P. Armstrong, this morning filed a suit in the district court against A. T. Kerr, the stock broker, praying for an accounting of all business transactions

between the partles.

The complaint alleges that on about the 5th of August, 1991, defend-ant made an agreement with the plaintiff to buy from time to time at his request stock in the May Day Mining and Milling company and forward the money to plaintiff to enable him to hold and carry such stock, for which Hamlton agreed to pay a commission and per cent per month for the use of the money. That, during the month of August and at various times Mr. Kerr ourchased stocks in said May Day company for plaintiff aggregating 4,400 shares and also purchased for him 200 shares of Ajax, which he agreed to hold until instructed to sell by the plaintiff. But between the 24th and 26th of October, defendant sold said stock at a profit of not less than \$3,535.-30 which he refused to turn over to Hamilton and has failed to render any account of the money in his hands by reason of said sale. Wherefore plainiff prays that defendant be compelled to render an accounting and that he turn over the \$3,535.30 which he cleared

on the transaction. RESUSCITATING EGYPT.

Operations May be Resumed in Ancient Mining Country.

In its last issue the Engineering and Mining Journal says that Egypt, which in all probability is the oldest mining country in the world, may take its place again as a producer of gold after an intermission of many centuries. Recent explorations in the desert section along the borders of the Red Sea have shown the existence of very ancient workings, and also the probability that some of these may be reopened with profit. Several English companies have been organized to exploit these mines and their value will be thoroughly test ed. It is not unlikely that be-fore long some of the mines which supplied gold to the treasury of the Pharaohs may be shipping bullion to London.

IN PERU.

Description of a District Taken Up

By American Company. Secretary Nell of the United States egation at Lima, under date of Novemr 25, 1901, reports the formation of an American syndicate, with headquar ters in New York City, for the purchase and working of copper and other mines in Cerro de Pasco. Peru. He says that Cerro de Pasco is situated 14,300 feet above the sea level at a distance of about 220 miles from the port of Callao The ores of this district contain gold, sliver, lead, and copper. The amount of silver coined, smelted, and exported from Peru, from 1786 to 1850, was 285,-613,796 cunces, of which 161,451,731 cunces were from Cerro de Pasco alone. The exportation of copper ores from Cerro de Pasco in the year 1900 was 11,-944.2 metric tons, besides 5,138 tons of

copper bars.

May Elect Tonight. On account of the fact that Mr Bransford & member of the newly elected governing board of the mining exchange, is on the jury no election of officers for the exchange was had yes terday, but that duty may be dis-charged this evening if an attendance of the entire board shall be secured. which is required by the rules of the

Petroleum Briquettes.

In a United States consular report of Malker Bros. Bank B'ld'g. Tel. 1257z. | recent transmission is noted the forma- | Donaldson.

France, to manufacture briquettes from petroleum. They will cost more per ton than coal, but it is claimed that their calorific power is much greater and that they present many advantages where a comparatively light and com-pact fuel is required, as on shipboard. The company will also manufacture briquettes of a mixture of coal dust and petroleum,

How Can They Say It?

News comes from Niehart, Mont. that two prospectors, Dave Llewellyn and W. H. Harmon, who are leasing on the O'Brien mine, have struck what is believed to be a mine of pure silver. They have secured 13 tons of the ore, which is almost malleable. An average assay is eighteen thousand ounces, which gives a value to the ton of nearly \$8,000 in the white metal.

Documents Filed.

Provo, Jna. 28 .- The following mining documents have been filed with the county recorder,

United States patent in favor of Thos

C. Leetham et al. for the Last Chance and Ranger mining claims, situated in l'intie mining district. Location notices of the Moonshine and the Last Luck mining claims, one mile east of Spring lake, in Eldorado mining district, by R. L. Henry et al. Location notices of Grey Bird and Grey Bird Extension mining claims, near mouth of Crab creek in Eldorado mining district, by Varius Simmons et

beriey with reference to the purchase of mill machinery for the property. ment work has been done on the mine

The New York-Utah Mining company, of which Alex. Hillstrom, now of Price, is the manager, has let a contract to put down a well on its big block of land on the east slope of Cedar mountain. Mr. Hillstrom received word from his Oswego. N. Y., associates, to this effect a few days ago. Last night the Dewey Consolidated

held its annual meeting and the old board, as follows, was re-elected: Sig Simon, president: P. W. Madsen, vice president; John Halvorsen, secretary-treasurer, and Richard P. Morris, manager. An assessment of ½c. per was levied on the capital stock of the company.

Arguments have begun at Nephi in he big mining suit of the Grand Central-Mammoth companies. The litiga-tion involves damages in the sum of half a million dollars and apex rights in the ore bodies. The jury was charg-ed yesterday and Col. Picket opened his argument for the Mammoth side. Mrs. Agnes Ireland, widow of the

late Marshal Ireland, is financially in-terested in several off claims in the Sinbad valley, southeast of Castledale ogether with Judge Bartch and other prominent Salt Lakers, and Ira Browning of Castledale. A company controlling 640 acres of oil land is soon to be incorporated.

A deal was consummated in Baker City, Oregon, on Friday last whereby ownership of the Oregon and Cracker mark claims, near the North Pole nine, was transferred from George B. and M. J. Janny and Clark Taber to a Minneapolis syndicate represented by Martin Hawkinson of Minneapolis total purchase price was near \$20,000,

Manager B. T. Lloyd reports the Coper Mountain and Copper Ranch prop-etics in Beaver county to be in excel-ent condition. At the first named the shaft is now down over 275 feet, with the entire bottom in ore, much or which will run all of 30 per cent coppor, with usual values in silver and gold, together with a heavy percen-tage of iron. The new vertical shaft on the west or "Jewel mound" end of the Copper Ranch has been put down

Emery County Progress (Castledale) turns from a grass roots sample of or from a lode claim south of Thompson's Springs, in Grande county, owned by himself and Messrs. Dickson, Jeffs and zett. The sample was from a 4per. 4.10 ounces of silver and 40 cents rold. As the local company, the Clara oppure Aidention one of Nr. Olsen and is partners are fairly well pleased with

A depth of 500 feet has been attained in the new shaft on the south end of the Dead Pine, at Victor, Colo., under lease to Admiral Schley & Co., and rifts are well under way in both di-ections. Toward the south, which is lown the hill, the drift is in 50 feet and north about 30 feet. Assays obtain ed show the approach of pay values but one of the rock hoisted is being saved. In a southerly direction the lo-cality of the Gold Coin chute is being neared, and in the opposite direction of the main chutes opened up in the other end of the Dead Pine are

likely to be encountered. The Minnie Maud Oil and Mining company, of Price, Utah has filed its articles of incorporation with Secretary State Hammond. The company formed for the purpose of develop ing oil and mineral lands in Carbon county and the principal place of busi-The capital stock i valued at \$100,000 and is divided into 200,000 shares of the par value of 50 cents. The officers and directors, who are all residents of Price, are as follows: A. J. Lee, president; J. T. Nichols, vice president; L. C. Shingleton, secretary and treasurer; and E. M. Peyton, Thomas Fitzgerald and W. H. Donaldson.

MARKET UNDE BULL'S CONTROL

Amalgamated Copper and Sugar Leading Features.

GENERAL DEMAND BROAD.

Advances in Many Stocks - Large Buying Orders Well Distributed Through Builroad List.

New York, Jan. 28 .- The stock market started with some large buying orders well distributed through the railroad list. There were 7,000 shares of Amalgamated Copper taken at 74 to 74%, compared with 73% last night. Small traders took advantage of the higher opening to sell out and there were fractional declines. Sugar rose to 127. Its strength acted as a prop to the general market and was supplemented by some inquiry for minor stocks. Buying of Alamgamated liften it above 75 and Anaconda was benefited sympathetically a point. Some of the other metal stocks were firmer, but there was little interest in the leading railroads and industrials, which held

firm at slight additional advances. Sugar was bought heavily just before noon and advanced to 127%. Bonds were dull and firmer.

Prices continued to improve, active lemand for the local tractions giving one to the market.

The bulls had the market well in hand after I o'clock, Amalgamted Cop-per and Sugar were the leading features and sold more than 2 points above yesterday's close. The general demand was broad and caused advances of a point of more in many stocks including Atchison preferred. The demand was active in the final hour and strength permeated the list generally. Among the stocks brought up to the higher level es actished by the earlier movement were Southern Pa-cific. Pennsylvania, People's Gas and Tennessee Coal, C. C. & St. L., which e 2% and the preferred 214. ville, Chattanooga & St. Louis advanced four on a single sale. International Pump gained 3¼ and the preferred a point. The closing was strong.
